

♉ Weekly Horoscope for Taurus

21st July 2008 – 27th July 2008

Rita Ann Freeman's Weekly Horoscope:

Private Life: ☀

Money and Professional Matters: ☀

Family:

Enhancing family life may be a goal this week and having your eye fall upon big ticket items may easily drain your wallet fast. Make sure you and a partner share your ideas or risk big time clashes within the family near the 24th to 27th from 'letting the cat out of the bag' to members before being 'on the same page' with co-finance personalities.

Love:

Romance may take a serious hit this week and can come from a variety of sources, most of which appear to be within your control! You may be 'reassessing' a romantic partner near the 25th, especially for Bulls paired to Sagittarius, Capricorn, Cancer or Pisces. Read the weekly partner horoscope...

Friendship:

Invitations are likely this week and your 'generosity' in gift giving may fall under scrutiny. Be sure you do not 'overwhelm' a pal by gifting too much for them to reciprocate. Going to 'excess' in the presence of pals in spending, eating and commenting is likely near the 26th.

Career:

Expansion of territory is likely this week but expand within reason each day in both financial and power moves. Make sure all bases are covered before moving on to the next phase. A financial 'set back' is possible near the 25th and may contaminate or delay plans. 'Feel the flow' and roll with it as 'bucking the tide' is very unwise until the week of 8/4.

☀ Weekly Overview by Deborah Browning ☀

This week's scenario is highlighted by hard work and concentrated effort and are the key issues for this time period. You are faced with tasks that are tedious and difficult but which must be completed at this time. Fortunately, you have the mental concentration and stamina to tackle the tasks now but the demands are still more than you would like to cope with. This is a difficult time period, but at least your work is cut out for you. You are likely to discover flaws in your creative projects, neglected aspects of projects you are involved with, and tedious, detailed work that you have been putting off.
